Hello Clients and Friends,

I hope everyone is enjoying the fall season!

September has been a busy month at [AR Jaffer Professional Corporation](#). First of all, we've been hard at work on our website and have recently added some new tools to improve your user experience, a breakdown of which is listed below.

Secondly, I'm pleased to announce that I've added some additional services to my client portfolio.

Last year, CGAs were granted the authority to perform audit and review engagements in Ontario. This is very exciting news for the industry as a whole, as it means that individuals in need of an independent accountant now have more access to financial services.

Over the coming weeks I will have some exciting announcements regarding the practice that I will be sharing with you, so please stay tuned.

In the meantime, I invite you to read on to learn about the many ways we are working to serve you better!

Yours truly,

Ali Raza Jaffer, CGA, MBA, BComm
President, AR Jaffer Professional Corporation
Certified General Accountant

New to our Website

- [Click here](#) to read an article that I contributed to for Money Sense Magazine (PDF format).
 - CGA Ontario celebrates the right to license CGAs as public accountants. [Click here](#) to read the official announcement.
 - We've added an [HST guide](#) to our "links" section.
 - [Click here](#) to read our latest client testimonials.

Additional Services

- **Medical professionals.** Our practice has developed professional expertise in this niche area in an effort to better serve medical professionals in need of financial, tax and accounting services.
- **Non-profit.** We offer all engagements for non-profit organizations, including: audits, reviews and notice to readers, as well as ongoing financial and accounting functions.
- **Virtual CFO services.** This is a full-spectrum business solution that services all business and financial needs. Our virtual CFO services are a low cost option for small businesses who require an accountant, without the need to hire a full-time, in-house professional.

Financial consulting. This service is ideal for any business requiring consulting on financial projects, analysis, or assistance when there is a void in controllership or finance function within the company.

Standard Services

Full accounting and controllership services (monthly and interim financial statements, book-keeping, HST and payroll filing)

Year-end financial statements (audits, review engagements and notice to readers) and corporation taxes

Personal taxation

Business and personal tax planning

Business start-ups (incorporations, business plans)

Cash flow projections

Industry competitive analysis
